Explanation

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C.; if processed, publisher is issuing office. When size is not given octavo is to be understood. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, press releases and administrative, regional, and confidential publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (the 25 percent discount to dealers does not apply to the Congressional record (daily issues and subscription), Supreme Court reports (bound volumes and subscription), Catalog of copyright entries, Climatological data (subscription) and all weather maps, Weekly corn and wheat region bulletin, and Weekly weather and crop bulletin, Federal register (subscription), old Naval documents, and Writings of George Washington, which may, however, be sold by dealers at a price in advance of that charged by this Office).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock, which amounts to more than 8 million, includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the price lists, the Documents Office issues a Weekly list of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 19, 77-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sent to public libraries free on application. Subscription price to individuals, \$1.50 a year, including index; foreign subscription \$2.10 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

LAWS

NOTE.—The Federal laws are first published separately and in this form are known as "slip laws." Later, these laws are compiled, edited, indexed, and published in the volumes of the Statutes at Large.

Beginning with the 77th Congress, the laws no longer are numbered in four series, public acts, private acts, public joint resolutions, and private joint resolutions, but are numbered in two series, namely, public laws and private laws.

The "slip law" continues to bear the chapter number and the session of Congress during which the law was enacted, but this information does not appear in the entries listed below.

Private [joint] resolutions. See, above, note under center head Laws.

Private law 128-162, 77th Congress.

NOTE.—The Division of Research and Publication, State Department, receives a small supply of the private laws which it distributes free upon application.

Transportation maps

NOTE.—These maps show in color the Federal-aid and State highways, with status of improvement, principal connecting roads, railroads, airways and airports, canals and dredged channels—in short, all the media of organized transportation. They also show the boundaries or locations of National and State forests and parks, Indian reservations, military reservations and recreational areas with the roads leading to them. Special maps to a larger scale, printed as inserts on the regular sheets, where practicable, show in better detail, the transportation routes within the larger metropolitan areas.

Topographic quadrangle maps

NOTE.—The Geological Survey makes the contoured—i. e., the three-dimensional topographic maps of the country that are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1:31,680, 1:62,500, and 1:125,000, corresponding approximately to $\frac{1}{4}$ mile, 1 mile, and 2 miles to 1 inch. The area covered varies with the latitude, but the average area of a quadrangle is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16 $\frac{1}{2}$ inches and the maps of the quadrangle areas represented thereon are about 17 $\frac{1}{2}$ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to \$5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together. In ordering, give the name of the map and the State in which the area lies.

NOTE.—The *Reclamation era* is a magazine for engineers, construction men, economists, and farmers on Federal reclamation projects. Its aim is to assist the settlers in the proper use of water, to help them in overcoming their agricultural difficulties, to instruct them in diversifying and marketing their crops, to inspire the employees of the Bureau and chronicle engineering problems and achievements, and to promote a wholehearted spirit of cooperation, so that reclamation shall attain the greatest heights of success. "Notes for contractors" enable them to keep posted on the Bureau's needs.

The subscription price of the *Reclamation era* is \$1.00 a year to other than water users; foreign subscription, \$1.36 payable in advance. Subscriptions should be sent to the Commissioner, Bureau of Reclamation, Washington, D. C., accompanied by remittance in the form of postal money order or New York draft, which should be made payable to the Treasurer of the United States and forwarded to the Bureau of Reclamation.

prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect, daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Federal register. Federal register, v. 6, no. 149-170; Aug. 1-30, 1941. [1941.] p. 3823-4501, il. 4° [Daily, except Sunday, Monday, and day following a legal holiday.]

AE 2.7: 6/149-170

NOTE.—The Federal register contains (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents, or employees thereof; also contains all Executive orders establishing, amending, or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so to be published by act of the Congress. From Mar. 14, 1936 through Aug. 31, 1941, one hundred and thirty-three (133) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 10c.; \$1.25 per month; \$12.50 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Washington, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1:62,500 or 1:63,360 (1 mile to the inch). Maps of more than 1,575 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from negatives on file, are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for January 1941, page 85.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the publication numbers, arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge; 2. Smithsonian miscellaneous collections; 3. Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents,

How to order publications—See General Information

but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to book dealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The only Smithsonian publications that are regularly issued as public documents are the annual report volumes. The publications in the other series have free transmission by mail, and, therefore, are included in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws and treaties) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. The Department of State Bulletin, published weekly and indexed semiannually as of the

How to order publications—See General Information

dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly promulgated by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal Register*.

MISSISSIPPI RIVER COMMISSION

NOTE.—The publications of the Mississippi River Commission consist of annual reports, annual pamphlets showing daily river stages, annual pamphlets showing daily river discharge, and annual pamphlets showing results of river discharge measurements; also publications of the Waterways Experiment Station operating under the direction of the Mississippi River Commission. The Mississippi River Commission publishes maps and charts of the Mississippi River; navigation maps of the Mississippi River from Cairo, Ill., to the Gulf of Mexico, La.; and wall maps, in colors, of the lower Mississippi River Valley from the head of the St. Francis Basin near Cape Girardeau, Mo., to the Gulf of Mexico, La., scale 1:500,000 and 1:250,000. Topographic quadrangle maps in colors, scale 1:62,500 of the alluvial valley of the lower Mississippi River are also published by the Mississippi River Commission; the topographic quadrangle maps comprise over 200 sheets and cover portions of the States of Missouri, Illinois, Kentucky, Arkansas, Tennessee, Mississippi, and Louisiana adjacent to the Mississippi River and tributaries, with an area of almost 51,000 square miles mapped. All are sale publications obtainable only from the Mississippi River Commission, except the annual reports which are issued by the Superintendent of Documents. No discount is allowed. Requests for information as to lists of publications and maps and method of making remittance should be addressed to: The Mississippi River Commission, P. O. Box 60, Vicksburg, Miss.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Rainy Lake, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 605 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 322 Federal Building, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased for 75 cents from the U. S. Lake Survey Office and from the Superintendent of Documents. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who purchase the bulletin.

Complete sets of charts and publications may be seen at the U. S. Engineer offices in Duluth, Minn., Milwaukee Wis., Chicago, Ill., and Cleveland, Ohio, and at the Office, Chief of Engineers, U. S. Army, Washington, D. C., but they are obtainable only at the sales offices above mentioned.
